TID ISSUES SAFE ZONE WALKING PLAN FOR GARFIELD AND BUCHANAN STUDENTS

FAIRFIELD-August 21, 1998-Because construction of the Butler Regional Highway closed many of the streets and sidewalks near Garfield Junior High School and Buchanan Elementary, the TID in conjunction with Hamilton City Schools and Kokosing Construction developed a safe zone walking plan for students.

To ensure safety walking to and from these schools, the following sidewalks have been fenced off from the construction, and they remain open for the students:

Fair Avenue: East and West side of the street
Maple Avenue: North and South side of the street
Crossing to Hancock on the Northwest side of Hancock
Dayton Street: North and South side of the street
Vandever Avenue: to serve the students residing on High Street between Fair and Lockwood

The safe zone map will be displayed in both schools, and fliers will be distributed to students. To receive a safe zone map by mail, contact the Butler County TID at 942-4700.
